# What is OmniPlan?

Schedule. Assign. Complete. OmniPlan has all of the robust and familiar features of a Product Management app, with the effortless and intuitive experience of the Mac. With collaboration, Gantt charts, and easy scheduling, OmniPlan makes project management a snap, so you can spend less time planning and more time doing.

## What makes Omniplan for Mac different?

OmniPlan is optimized for the Mac experience. The interface is is familiar, friendly, and easy to use. OmniPlan starts out light and grows as your project does, so everything is exactly as intricate or simple as it needs to be. Use it as a rough estimator, or sync your project with everyone on the team, using Change Tracking, for precise control of absolutely everything.

#### Who uses OmniPlan for iPad?

Business professionals, project managers, educators, and freelancers all rely on OmniPlan for its unparalleled project management functionality.

From intricate projects to a three-step plan, some common-use examples include:

- Using calendar sharing to find out your colleague's availability
- Planning and costing a web design project
- Accepting and rejecting changes from collaborators with change tracking
- Using notes to expand on a principal idea
- Creating visual allure with styles
- Creating calendar exceptions for holidays
- Splitting tasks to reschedule unfinished work
- Importing projects from Microsoft Project

Start by laying out some very basic steps in your **Tasks** view. Once the basics and milestones have been set, it might be worth turning related tasks into groups.

<ul> <li>The control of the set of the s</li></ul>	e O O	<ul> <li>Street Improvement Project 2012</li> <li>Street Improvement Project 2012</li> <li>Street Improvement Project 2012</li> </ul>	<b>☆</b> . ◆. △ <sup>(2)</sup>	Next, check out the <b>Resources</b> view to add <b>staff</b>
<ul> <li>2.1) Resarch Iophing options 3d 5h</li> <li>2.2) Resarch Tollage options 3d 5h</li> <li>3.2) Weth Gesign 1b</li> <li>3.3) Stramp 1d</li> <li>3.3) Kontrane III Control Carle 2d</li> <li>3.3) Copy for project smooth new images 1d</li> <li>3.3) Ford website design 1d</li> <li>3.3) Find website design 1d</li> <li>3.3) Find website design 1d</li> <li>3.4) Update sites with chy 1d</li> <li>4.2) All set meeting 1d</li> <li>4.2) All set meeting 1d</li> </ul>	<ul> <li>1) Idea Phase</li> <li>1.1) Initial meeting</li> <li>1.2) Public meeting prep</li> </ul>	Sh 🧹 🧭 Ari Anthel	12 Jun 13 Jun 14 🔎	working on the project, <b>equipment</b> , or <b>materials</b> Group by different departments if possible.
	<ul> <li>2.1) Reservich lighting options</li> <li>2.2) Research foliage options</li> <li>2.3) Present to team</li> <li>3) Web design</li> <li>3.1) Sitemapion</li> <li>3.2) Wirsframe in Com/Caffle</li> <li>3.3 Copy for project synopsis</li> <li>3.4) Update site with new images</li> <li>3.5) Final website design</li> <li>4) Approval</li> <li>4.1) File papernork with city</li> <li>4.2) West meeting</li> </ul>	3d 5h 3d 5h 1w 1d 2d 2d 2d 4ri Anthel 1d	8ob Brown, Clay Custer	 Ari Anthel: Bob Brown; Clay Custer

In the Resource Inspector, modify the efficiency of ▼ Resource: Inform 0.1 = 1 staff or cost per hour to better track total project Name: Me cost. Address Ŧ \$\* ĸ {} Type: 1 . Staff Tool Material Group Ð 100% Units Efficiency 100% Start End: m ..... Cost/Use Cost/Hour: \$5.15 Efficiency: 100% Total Uses: 9 Total Hours: 1d . End Total Cost: \$41.20 \$5.15 Cost/Hour Style Attributes #3 1d otal Hours: Me!

Now switch to the last view: **Calendar**. Here we can set working hours for the project as a whole, or per **Resource**, per week. This is helpful for leveling, which can be done manually but is automatically done by default.

The initial plan is set; lock in a **Baseline** to compare this version of the project with later versions. (**Project >Set Baseline**)

 $\bigcirc$ 

**Sync** with teammates using our new **sharing** features. Sync the entire project, portions by **resource** with CalDAV, and more. Options are endless with custom filters, recipients, and Applescript.

Mountain Lion compatible: **Full Screen** mode and more!

View Baseline		Critical Path Level Catch		Publish Track Changes Violations Insper
